

MARK ANTHONY RIVAS

Senior Full-Stack Developer · React · Next.js · Node.js · Web3

Remote (Dubai, UAE — GMT+4) | W h a t s A p p : +971 589879416 | mark.anthony.rivas89@gmail.com

Availability: Open to remote full-time, contract, and freelance roles · **Timezone overlap:** EU (5–9 hrs), US East (8–11 hrs)

PROFESSIONAL SUMMARY

Senior full-stack developer with hands-on experience across React, Next.js, Node.js, and Web3 stacks. Comfortable owning features end-to-end — from smart contract integration and API design through to TypeScript front-ends and accessible UI. 10+ years delivering production web, mobile, and e-commerce solutions for global clients across fintech, insurance, blockchain, and enterprise sectors. Currently splitting time between contract Web3 work and front-end consulting; available for remote permanent or contract engagements.

CORE TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, React Native, Redux, Tailwind, HTML5/CSS3, accessibility
Backend	Node.js, Express, REST APIs, GraphQL, microservices
Web3 / Blockchain	Solidity, ERC-20/721/1155, Web3.js, Ethers.js, MetaMask & WalletConnect, dApp frontends
Databases	MySQL, PostgreSQL, MongoDB, Redis
E-commerce	Shopify (Liquid, Storefront API), WooCommerce
DevOps & Cloud	AWS (EC2, S3, Lambda), Docker, GitHub Actions, Vercel, Cloudflare
Practices	Agile/Scrum, code review, TDD, system design, performance, security

SELECTED EXPERIENCE

Senior Full-Stack Developer (Web3 Freelance)

Dec 2025 – Present

Steel Spear Media-FZCO · Remote (Dubai, UAE)

- Architected and built full-stack Web3 dApps with React, Next.js, Node.js, and Solidity — integrating smart contract logic with TypeScript front-ends.
- Deployed Solidity smart contracts on EVM-compatible chains, including ERC-20 / ERC-721 token standards and staking mechanisms.
- Built responsive Next.js front-ends with wallet integrations (MetaMask, WalletConnect) for end-user onboarding.
- Developed REST and GraphQL APIs serving on-chain and off-chain data, with caching strategies and query optimization.

Senior Front-End & Mobile Developer (Contract)

Apr 2025 – Nov 2025

XFlame Tech Design LLC · Dubai, UAE

- Architected a React Native mobile application deployed across multiple internal company products with shared component library.
- Led front-end development with React and Next.js, delivering performant, scalable, maintainable codebases.
- Integrated front-end systems with Node.js APIs covering authentication, data flows, and error handling.
- Conducted code reviews and mentored junior developers across parallel project tracks.

Senior Application Developer (Team Lead)

Jan 2023 – Mar 2025

Continental General Insurance Company · Remote (Austin, TX, USA)

- Led design, development, and deployment of enterprise insurance applications serving thousands of policyholders.

- Owned architectural planning and translated complex business requirements into scalable technical solutions.
- Implemented automated testing and CI/CD pipelines, reducing deployment errors by ~30%.
- Collaborated across product, design, and back-end teams to ensure system reliability and security compliance.

Senior Full-Stack Developer (Contract Lead)

Jan 2022 – Dec 2022

Codebluedev · Remote (New Jersey, USA)

- Built full-stack applications using React, Node.js, and PHP for enterprise-level clients.
- Designed and optimized relational and NoSQL databases (MySQL, PostgreSQL, MongoDB) for high-traffic systems.
- Implemented microservices architecture with Docker for improved scalability.
- Integrated Stripe, PayPal, and multiple third-party APIs into production systems.

Senior WordPress & Shopify Developer (Contract Lead)

Nov 2020 – Dec 2021

New Idea Web · Remote (New York, USA)

- Built custom WordPress themes and plugins, and Shopify storefronts using Liquid and the Shopify APIs.
- Improved site performance by ~40% through caching, database optimization, and code refactoring.
- Implemented secure payment gateways and applied security hardening across client platforms.

Senior Blockchain Developer (Lead)

May 2019 – Sep 2020

SYSPLEX IT Solutions · Remote / Pasay City, Philippines

- Designed and deployed NFT marketplaces, token contracts (ERC-20/721/1155), and staking mechanisms.
- Developed Solidity smart contracts with security-first practices, including audit readiness.
- Integrated Ethereum-based networks via JSON-RPC APIs and built on-chain reward systems.

Independent Full-Stack Freelance

2009 – Present

Upwork & direct clients — global · Remote

- Long-running freelance practice in parallel with permanent and contract roles — 50+ end-to-end web, mobile, and e-commerce projects across fintech, retail, and media.
- Stack across projects: React, Next.js, Node.js, WordPress, Shopify, with strong repeat-business and referrals.
- Earlier roles (2012–2021) include Senior Developer, Lead Programmer, Blockchain Specialist, and Systems Analyst across Australian, Philippine, and remote international clients.

EDUCATION

Bachelor of Science in Computer Science

Divine Word College · Philippines

SELECTED ACHIEVEMENTS

- Reduced site load times ~40% on client e-commerce sites through targeted caching, image optimization, and code refactoring.
- Reduced deployment errors ~30% through added automated test coverage and CI/CD pipeline improvements.
- Built and launched multiple NFT marketplace platforms handling significant on-chain transaction volume.
- Maintained an active independent freelance client base for 10+ years with strong repeat business and referrals.
